

All Phase 20

Pelleted

Versatile balancer pellet adds complete nutrition to forages or complete feeds fed under minimum recommended level.

Features and Benefits

- ✓ Formulated with **high quality protein**, vitamins, and bio-available chelated (organic) minerals to provide nutritional balance to rations including the B-complex such as biotin along with essential amino acids (protein).
- ✓ The level of sugar and starch (**NSC**) has been **significantly reduced** to maximize the positive effects of non NSC sources and emphasize essential amino acids for growth and muscle repair.
- ✓ Brooks exclusive **Oxiguard** system of natural source Vitamin E and organic selenium synergistically act as effective antioxidants to minimize muscle soreness and fatigue.
- ✓ A **flexible feeding rate** allows for precise ration balancing according to current feedstuffs and the unique requirement of all classes of horses including growing, breeding and metabolically challenged horses.
- ✓ The addition of a proprietary yeast culture **Saccharomyces Cerevisiae** improves digestion of fibre and promotes more efficient use of nutrients.

*All Phase 20 is a fixed formula manufactured in a **drug free** environment!*

All Phase 20 Description

All Phase 20 is a versatile pelleted supplement formulated to supply a complete nutritional balance including protein to rations not containing a recommended amount of a Brooks complete feed. All Phase 20 provides essential amino acids (protein), and a full complement of vitamins and highly available macro and trace minerals to ensure horses do not develop any long-term deficiencies of key nutrients. A reduced non-structural carbohydrate formulation (NSC) makes All Phase 20 an ideal choice to balance rations for metabolically challenged horses such as those diagnosed with Equine Metabolic Syndrome, Cushings, or laminitis where total calories (particularly from starch and sugar) must be limited. All Phase 20 may not provide sufficient calories for some metabolically challenged horses. Contact a Brooks Nutrition Advisor for specific recommendations.

All Phase 20 is palatable whether fed alone or top-dressed on other feeds.

Feeding Suggestions (Daily amounts)

The feeding rate of All Phase 20 is dependent on the type of horse fed. Where another source of minerals and vitamins is fed the amount of All Phase 20 can be reduced proportionately.

Mature Weight	880 lbs. (400 kg.)	1100 lbs. (500 kg.)	1320 lbs. (600 kg.)
Maintenance	1.3 - 1.5 lbs. (.6 - .7 kg.)	1.5 - 1.75 lbs. (.7 - .8 kg.)	2.0 - 2.2 lbs. (.9 - 1.0 kg.)
Light work	1.5 - 1.75 lbs. (.7 - .8 kg.)	2.0 - 2.2 lbs. (.9 - 1.0 kg.)	2.2 - 2.65 lbs. (1.0 - 1.2 kg.)
Broodmares 1-5 Months.	1.5 - 1.75 lbs. (.7 - .8 kg.)	2.0 - 2.2 lbs. (.9 - 1.0 kg.)	2.4 - 3.3 lbs. (1.1 - 1.5 kg.)
Broodmares 6-11 Months.	1.75 - 2.4 lbs. (.80 - 1.1 kg.)	2.20 - 3.1 lbs. (1.0 - 1.40 kg.)	3.10 - 4.0 lbs. (1.40 - 1.80 kg.)
Stallion Non-breeding	1.3 - 1.5 lbs. (.6 - .7 kg.)	1.5 - 1.75 lbs. (.7 - .8 kg.)	2.0 - 2.2 lbs. (.9 - 1.0 kg.)
Breeding	1.5 - 1.75 lbs. (.7 - .8 kg.)	2.0 - 2.2 lbs. (.9 - 1.0 kg.)	2.2 - 2.65 lbs. (1.0 - 1.2 kg.)

All Phase 20 can be used as part of a ration where less than the recommended rate of Complete Feed is fed. Feed .25 pound (115 grams) of All Phase 20 for each pound of Complete Feed fed below the recommended amount.

Do not exceed recommended amounts. Contact a Brooks representative for specific information.

Note: Warmblood and Draft type horses may require different amounts from light horse breeds. Contact a Brooks Feed representative or submit a request on our interactive web site.

Amount of feed required is dependent on the body condition, the metabolism and the type of activity that the horse is used for. For each pound of a Brooks complete ration fed daily reduce the amount of **All Phase 20** by .25 (¼) pound (.11 kg). For specific recommendations consult a Brooks Feed representative or submit a request online using our interactive feeding guide. Provide fresh clean water and free choice salt with a minimum of 1% of bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration. Contact your retailer or Brooks Nutrition Advisor.

A list of ingredients and full nutritional analysis is available by contacting the manufacturer.
