## Features and Benefits of Brooks 12%

❖ **Formulated with carefully selected grains and proteins.**

*Use as a palatable concentrate for maintenance, or for horses with moderate energy requirements.*

**Economically priced.**

*Supplies balanced nutrition for budget conscious horse owners while ensuring that all nutritional needs are met at suggested feeding rates.*

**Manufactured with a proprietary form of Saccharomyces Cerevisiae a prebiotic with a wide body of research.**

*The addition of a proprietary yeast culture improves digestion of fibre and promotes more efficient use of nutrients.*

**Balanced with vitamins and chelated minerals.**

*Supplies micronutrient fortification not found in forages and eliminates the need for expensive supplements.*

**Contains a full complement of B Vitamins and amino acids**

*Meets all of the daily maintenance requirements for B Vitamins including biotin and provides full spectrum of essential amino acids*

**Formulation is fixed**

*A fixed formula means that we do not substitute inferior low cost ingredients for superior ingredients to lower the cost of production.*

Brooks 12% is formulated with carefully selected ingredients to ensure maximum palatability and consistency.

**Guaranteed Quality**

**Ultimate Performance**

**Industry Leading Research**

# Brooks 12% Sweet Feed Description

Brooks 12% Sweet Feed is a value added sweet feed for moderately active horses. The formulation draws energy primarily from carbohydrates, which provide rapidly metabolized energy. The complete nutrient balance of minerals and vitamins helps maintain long-term health particularly of the hair and hooves. Brook's proven quality and drug free manufacturing facilities ensure satisfaction and complete confidence at a cost comparable to competitors textured feeds.

Brooks 12% Sweet Feed is manufactured with carefully selected ingredients making it a very good choice for finicky horses to supply total nutrition in a very palatable form that horse accept readily and stay on.

## Feeding Suggestions

Mature Weight	880 lbs. (400 kg.)	1100 lbs. (500 kg.)	1320 lbs. (600 kg.)
Idle horses	3-5 lbs. (1.5-2.5 Kg.)	4-6 lbs. (2-3 Kg.)	5-7 lbs. (2.5-3.5 Kg.)
Light work *	4-8 lbs. (2-4 kg.)	6-10 lbs. (3-5 kg.)	8-12 lbs. (4-6 kg.)
Moderate work **	6-10 lbs. (3-5 kg.)	8-12 lbs. (4-6 kg.)	10-14 lbs. (5-7 kg.)

\* ie. jogging, trail riding, pleasure etc.

\*\* ie. dressage, jumping, cutting, roping etc.

*Note: Warmblood and Draft type horses may require different amounts from light horse breeds.  
Contact a Brooks Feed representative or submit a request on our interactive web site.*

Amount of feed required is dependent on the body condition, the metabolism and the type of activity the horse is used for. For each pound of **Brooks 12%** fed daily below ½ pound per 100 pounds of the horse's bodyweight add ¼ pound (115 grams) **Brooks Enhancer or All Phase 20**. For specific recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse's bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
