Brooks 14%

(textured)

**A palatable textured ration
nutritionally balanced for
active mature horses**

Features and Benefits

- ✓ Economically priced to supply balanced nutrition for budget conscious horse owners while ensuring that all nutritional needs are met at suggested feeding rates.
- ✓ Carefully selected grains and proteins, with minerals and vitamins result in an economical, palatable concentrate for maintenance, or for horses with moderate energy requirements.
- ✓ A proprietary form of *Saccharomyces Cerevisiae*, a prebiotic with a wide body of research improves digestion of fibre and promotes more efficient use of nutrients.
- ✓ A well balanced level of vitamins and chelated minerals supplies micronutrient fortification not found in forages and eliminates the need for expensive supplements.
- ✓ A full complement of B Vitamins and amino acids meets all of the daily maintenance requirements including biotin and with a full spectrum of essential amino acids
- ✓ A fixed formula means that we do not use inferior ingredients to lower the cost of production.

Brooks 14% Sweet Feed Description

Brooks 14% Sweet Feed is a value added sweet feed for active horses. The formulation draws energy primarily from carbohydrates, which provide rapidly metabolized energy. The complete nutrient balance of minerals and vitamins helps maintain long-term health particularly of the hair and hooves. Brooks' proven quality and drug free manufacturing facilities ensure satisfaction and complete confidence at a cost comparable to competitors textured feeds.

Brooks 14% Sweet Feed is manufactured with carefully selected ingredients making it a very good choice for finicky horses to supply total nutrition in a very palatable form that horse accept readily and stay on.

Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition

Mature Weight	900 lbs. (400 kg.)	1100 lbs. (500 kg.)	1300 lbs. (600 kg.)
Idle horses	3-5 lbs. (1.5-2.25 kg.)	4-6 lbs. (2.0-2.75 kg.)	5-8 lbs. (2.25-3.5 Kg.)
Light work *	4-8 lbs. (1.8-3.6 kg.)	6-10 lbs. (2.75-4.5 kg.)	7-12 lbs. (3.2-5.5 kg.)
Moderate work **	5-10 lbs. (2.25-4.5 kg.)	7-12 lbs. (3.2-5.45 kg)	8-14 lbs. (3.6-6.40 kg.)

* ie. jogging, trail riding, pleasure etc.

** ie. dressage, jumping, cutting, roping etc.

Note: Warmblood and Draft type horses may require different amounts from light horse breeds. Contact a Brooks Feed representative or submit a request on our interactive web site.

Amount of feed required is dependent on the body condition, the metabolism and the type of activity the horse is used for. For each pound of **Brooks 14%** fed daily below $\frac{1}{2}$ pound per 100 pounds of the horse's bodyweight add $\frac{1}{4}$ pound (115 grams) **Brooks Enhancer or All Phase 20**. For specific recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt with a minimum of 1% of the horse's bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration. Contact your retailer or a Brooks Nutrition Advisor.
