Complete Fit & Fibre

A complete ration with
 high quality fibre and added fat
 for use as a concentrate for horses
 needing manageable energy.

Pelleted or textured

Fortified with Brooks exclusive
Oxiguard system of natural source
 Vitamin E and organic selenium!

Bioavailable Vitamin E and organic selenium
 work synergistically as effective antioxidants to
 minimize muscle soreness and fatigue.

*Our commitment to quality
 drug free manufacturing is
 your satisfaction guarantee!*

Guaranteed Analysis

Crude Protein (min.)	12 %
Crude Fat (min.)	6.5 %
Crude Fibre (max.)	20 %

Selenium	.35 ppm.

❖ **NSC (Controlled)**

Nutritional profile of pelleted Fit Fibre may vary slightly.

Features and Benefits of Fit & Fibre

Moderate energy high fibre formula with added fat.

The perfect blend of digestible fibre, fat and carbohydrates with a moderate caloric value for horses requiring controllable energy.

❖ **Low glycemic formula with highly digestible fibre sources, high quality vegetable fat and controlled starch and sugar.**

The positive effects of non NSC energy sources (fibre, fat) are maximized while controlled soluble carbohydrates are included to fully augment athletic achievement.

Manufactured with a proprietary form of Saccharomyces Cerevisiae a prebiotic with a wide body of research.

The addition of a proprietary yeast culture improves digestion of fibre and promotes more efficient use of nutrients.

Balanced vitamin and chelated mineral content

Supplies micronutrient fortification not found in forages and eliminates the need for expensive supplements. Chelated minerals are more readily and thoroughly absorbed for improved health and performance.

Contains a full complement of B Vitamins and amino acids

Meets all of the daily maintenance requirements for B Vitamins including biotin and provides full spectrum of essential amino acids

Fit & Fibre is formulated with carefully selected ingredients to ensure maximum palatability and consistency.

Fit & Fibre Description

Fit & Fibre is a fibre and fat based feed suitable for a wide range of horses. The low glycemic, low NSC formula with added fat makes Fit & Fibre an excellent choice for horses needing a moderate amount of controllable energy. Fit & Fibre draws energy primarily from high quality fibre sources without “filler fibres” common in lower quality feeds and added fat to increase the energy level. Low starch and sugar levels also make Fit & Fibre a good choice for horses diagnosed with *Cushings, Polysaccharide Storage Myopathy, excitability, chronic laminitis, or tying up*. Fit & Fibre can be used as a partial substitute for hay where the amount of hay is limited due to allergies or Chronic Obstructive Pulmonary Disease.

Fit & Fibre supplies total nutrition in a palatable textured or pelleted form that horses take to readily and stay on during training, competing or pleasure riding while outperforming comparably priced competitive products.

Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition

Mature Weight	900 lbs. (400 kg.)	1100 lbs. (500 kg.)	1300 lbs. (600 kg.)
Idle horses	3-5 lbs. (1.5-2.25 kg.)	4-6 lbs. (2.0-2.75 kg.)	5-8 lbs. (2.25-3.5 Kg.)
Light work *	4-9 lbs. (2.0-4.0 kg.)	6-11 lbs. (2.75-5.0 kg.)	9-13 lbs. (4.0-6.0 kg.)
Moderate work **	6-11 lbs. (2.75-5.0 kg.)	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)

* ie. jogging, trail riding, pleasure etc.

** ie. dressage, jumping, cutting, roping etc.

Note: Warmblood and Draft type horses may require different amounts from light horse breeds. Contact a Brooks Feed representative or submit a request on our interactive web site.

Amount of feed required is dependent on the body condition, the metabolism and the type of activity the horse is used for. For each pound of *Fit & Fibre* fed daily below ½ pound per 100 pounds of the horse’s bodyweight add ¼ pound (115 grams) *Brooks Enhancer or All Phase 20*. For specific feeding suggestions consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse’s bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
