Phosphorus (act.)	.55 %
Vitamin E (min.)	755 IU/KG.

❖ *NSC (very low)*

Features and Benefits of Flax Appeal

- ❖ **High caloric density with ultra-low starch and sugar content.**

A valuable addition to the diets of any horse with metabolic issues such as Cushings, PSSM, excitability or prone to laminitis

Formulated with stabilized whole flax seed and full fat soybeans.

Supplies very concentrated energy from both Omega 3 and Omega 6 fatty acids as well as valuable amino acids to promote good health and an extraordinarily shiny coat.

Flaxseed and whole fat soybeans are stabilized for ultimate feeding convenience.

No further processing, grinding, rolling or boiling is necessary. Just feed as is. Shelf life is comparable to other feeds.

Contains multiple digestible fibre sources.

High quality fibre adds energy that does not affect your horses behaviour and helps to maintain a healthy digestive system.

Adjust feeding rate for desired result.

Feed up to two pounds for weight gain or conditioning or a smaller amount (1-2 cups) for a healthy lustrous coat.

Enhanced with a highly bio-available source of Vitamin E.

Natural source Vitamin E acts as an anti-oxidant to help prevent tying up problems and assists in immunity.

Flax Appeal is best top dressed or mixed into your horse's regular grain meal or mixed with soaked beet pulp.

Flax Appeal Description

Flax Appeal is a high performance supplement formulated to add concentrated calories to the ration of a wide variety of horses. Flax Appeal is rich in essential fatty acids particularly Omega 3 from flax and enhanced with highly digestible fibre sources making it unsurpassed as a conditioning supplement. For high intensity or long duration activities Flax Appeal adds stamina and staying power. For horses in more moderate activities or even for maintenance the essential fatty acids in Flax Appeal help to maintain a lustrous hair-coat, healthy hooves and skin and overall wellbeing. Flax Appeal draws energy primarily from fat with additional energy from digestible fibre. Flax Appeal is extremely low in starch and sugar.

Flax Appeal is very palatable when added as a top-dress to the horse's regular ration or mixed with soaked beet pulp. Introduce gradually to the ration and then compare the great results to other supplements.

Feeding Suggestions

For best results feed from 1/4 to 2 lbs. per day added to the horse's regular grain ration.

Mature Weight	880 lbs. (400 kg.)	1100 lbs. (500 kg.)	1320 lbs. (600 kg.)
Maintenance	.25 - .5 lb. (.1-.25 kg.)	.5 - .75 lb. (.25-.35 kg.)	.75 - 1.0 lb. (.35-.5 kg.)
Light work *	.5 - .75 lb. (.25-.35 kg.)	.75 - 1.0 lb. (.35-.5 kg.)	1.0 - 1.25 lbs. (.5-.5 kg.)
Moderate work **	.75 - 1.0 lb. (.3-.5 kg.)	1.0 - 1.25 lbs. (.35-.5 kg.)	1.25 - 1.5 lbs. (.5--7 kg.)
Heavy work ***	1.0 - 1.25 lbs. (.35-.5 kg.)	1.25 - 1.5 lbs. (.5--7 kg.)	1.5 - 2.0 lbs. (.7-9 kg.)

* ie. jogging, trail riding, pleasure etc.

** ie. dressage, jumping, cutting, roping etc.

*** ie. racing, polo, eventing etc.

Note: Warmblood and Draft type horses may require different amounts from light horse breeds.

Contact a Brooks Feed representative or submit a request on our interactive web site.

Amount of feed required is dependent on the body condition, the metabolism and the type of activity that the horse is used for. Feed *Brooks Enhancer or All Phase 20* when mineral/vitamin supplementation is required. For specific recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of bodyweight in hay or equivalent pasture. Flax Appeal has a shelf life comparable to other feeds when stored in a cool dry location. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
