Photo Finish

(Textured)

A blend of digestible fibres and multiple fat sources for sustained energy and stamina combined with a controlled level of quick energy carbohydrates for speed and power!

Fortified with Brooks exclusive **Oxiguard** system of natural source Vitamin E and organic selenium!

Bioavailable Vitamin E and organic selenium work synergistically as effective antioxidants to minimize muscle soreness and fatigue.

Our commitment to quality drug free manufacturing is your satisfaction guarantee!

Guaranteed Analysis

Features and Benefits of Photo Finish

❖ Formulated with highly digestible fibre and multiple fat sources with quick energy carbohydrates.

Digestible sources of fibre and multiple fat sources provide stamina from sustainable energy while a perfect controlled blend of quick energy carbohydrates support speed and power where needed.

Contains whole grain flax, stabilized rice bran & soy oil.

High quality fats including soy oil, rice bran and Omega 3 from flax supply sustainable calories for a championship performance and healthy hooves and hair coat.

Balanced vitamin and chelated mineral content

Supplies micronutrient fortification not found in forages and eliminates the need for expensive supplements. Chelated minerals are more readily and thoroughly absorbed for improved health and performance.

Contains a proprietary form of *Saccharomyces Cerevisiae* a prebiotic and a Pro Biotic containing *Saccharomyces Boulardi*

Overall intestinal health is supported producing a robust population of hindgut microflora.

Formulation is fixed

A fixed formula means that we do not substitute inferior low cost ingredients for superior ingredients to lower the cost of production.

Photo Finish is formulated with carefully selected ingredients including beet pulp to ensure maximum palatability and consistency.

Guaranteed Quality

Ultimate Performance

Photo Finish Description

Photo Finish is a cutting edge feed that is a result of substantial research and technology. Photo Finish is formulated for horses active in high intensity disciplines requiring power and speed combined with the stamina to outperform the competition. Photo Finish derives energy from highly digestible fibre sources including beet pulp and multiple fat sources including flax, soy oil, and rice bran. Photo Finish also has the quick energy needed from carbohydrates to fuel the powerful bursts of speed needed to come out on top. The Brooks exclusive *Oxiguard* system of Natural Vitamin E and organic selenium helps to reduce muscle problems while the sustainable energy fat sources and “super fibres” provide substantial energy for championship performances. Prebiotic and probiotic sources help to sustain a robust population of microflora in the hind gut resulting in better health and nutrient utilization.

Photo Finish provides total nutrition in a very palatable form that horses accept readily and stay on during intense training and competition.

Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition.

Mature Weight	900 lbs. (400 kg.)	1100 lbs. (500 kg.)	1300 lbs. (600 kg.)
Light work *	4-9 lbs. (2.0-4.0 kg.)	6-11 lbs. (2.75-5.0 kg.)	9-12 lbs. (4.0-6.0 kg.)
Moderate work **	6-11 lbs. (2.75-5.0 kg.)	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)
Heavy work ***	9-13 lbs. (4.0-6.0 kg.)	11-15 lbs. (5.0-6.75 kg.)	13-17 lbs. (6.0-7.75 kg.)

* ie. jogging, trail riding, pleasure etc.

** ie. dressage, jumping, cutting, roping etc.

*** ie. racing, polo, eventing etc.

Note: Warmblood and Draft type horses may require different amounts from light horse breeds. Contact a Brooks Feed representative or submit a request on our interactive web site.

Amount of feed required is dependent on the body condition, the metabolism and the type of activity that the horse is used for. For each pound of *Photo Finish* fed daily below ½ pound per 100 pounds of the horse's bodyweight add ¼ pound (115 grams) *Brooks Enhancer or All Phase 20*. For specific feeding recommendations consult a Brooks Feed representative or submit a request on-line using our interactive feeding guide. Provide fresh clean water and free choice salt at all times with a minimum of 1% of the horse's bodyweight in hay or equivalent pasture. Store in a cool dry location. Amount fed varies according to the quality of hay or pasture. Hay analysis is recommended to ensure a balanced ration.

A list of ingredients is available by contacting the manufacturer.
