

Meet Ratchet a 9 year old draft cross that had been suffering from chronic ulcers and poor feet. This is what owner **Jamie Berry** had to say about how Ratchet is doing on Brooks Un-Ti and Flax Appeal.

*“Ratchet my 9 year old draft cross has been on Brooks for a few months. His feet always cracked prior to being on Brooks but I have not even seen a slight threat of a crack even with these crazy weather changes now that he gets **Un-Ti and 1 ½ cups of Flax Appeal.**”*

“Just really impressed with Brooks as I don't have easy keepers and the food is making them easy keepers! Here is a picture of Ratchet. My horse who has suffered from chronic ulcers has dapples for the first time!!”

“Thank you :)”

Our sincere thanks to Jamie Berry of London Ontario for sharing her success with Ratchet and Brooks Feeds
