Fueling Champions!

Making a difference through sound nutrition!

Maryline Rivet couldn't be happier with the amazing transformation in her 13 year old Appendix gelding.

“Vic came as a rescue to us. He was thin and unhealthy looking with a big belly. On the advice of Tania Laframboise and Tanya Brousseau we started him on All Phase 20 and Fibre Omega Plus and added a probiotic. That was eight months ago. We added some Equi-Jewel once he was eating well and the change is amazing. I'm really pleased with Brooks Feeds and the service of Tania from Brooks and Tanya from Les Moulees de la Montee.
