

Hanoverian Breeders

Believe in a Partnership

South Grey Hanoverians, owned by Jorg and Suzanne Hess is a scenic 100 acre farm near Mt. Forest Ontario. Over 35 years of experience in jumping, dressage, eventing, and driving have made Suzanne eminently qualified to coach and to raise athletic, intelligent horses modeled after the basics of the Spanish Riding School.

By crossing European Warmbloods (Hanoverians) with Thoroughbreds Suzanne and Jorg have produced horses

with refinement and ability combined with quiet calm demeanors to please their many clients. Suzanne specializes in training and starting young horses including their first show experiences. Our basic objective is to establish a successful partnership between the owner, the rider and the horse. When we're able to do that we feel a terrific sense of accomplishment.

Suzanne had these comments about her faith in Brooks Feeds: *"At South Grey Hanoverians we use Brooks Feeds because the quality of the feed and the selection of feeds available always manage to meet our varied requirements. When breeding our Hanoverian mares or showing we can depend on Brooks to meet all of our nutritional needs. Our horses have never looked or performed better! Also having the ability to speak with a representative (Laurie Bishop) directly is not only reassuring but hard to find in these times."*

"Keep up the good work Brooks"

The dedication and the high expectations of horse owners like Suzanne and Jorg inspire the staff at Brooks Feeds to strive for consistency and quality that is the best in Ontario.

Thanks to the Hess family for their successful use of Brooks Performance Horse Feeds and for their support.
