

In September of 2013 Andrea Harrison rescued Valiant a 16.3 OTT Thoroughbred. He was in horrible condition weighing only 650 pounds. With plenty of TLC and careful feeding Valiant has flourished and over time reached about 1100 pounds. Valiant originally started on *Brooks Fibre O Plus, Fit & Fibre, Flax Appeal and All Phase 20*. He also gets some herbs and medications to help him breath better. His coat was in terrible condition with balding patches and flaking skin.

“Within about two weeks of starting on Brooks feeds his coat started to come in healthy and glossy. The farrier was very impressed by how quickly his hooves came in stronger with less chipping. His energy increased week by week and the first time we saw him roll was an exciting day for all of us. Now two years later Valiant weighs about 1150 pounds slowly getting to our goal of 1200 pounds.”

*Valiant is now getting **Fibre O Plus, Flax Appeal and Equi-Jewel** and continues to thrive!*

Thanks Andrea for sharing this amazing recovery with us.
