

Cottage Brooke Farm and Equine Education Centre

Located in the beautiful rolling hills of Erin Township is the 100 acres known as Cottage Brooke Farm. Wendy & Jason Swackhamer, with children Ashlee, Alysha & Austin live on the farm and Wendy is quick to point out that the full name is Cottage Brooke Farm and Equine Education Centre.

“Our focus is on learning about horses for all ages” Wendy explains. We have lessons for children to older adults as well as a summer camp for children 4-12. Children are taught the basics of horsemanship and encouraged to go on further in their equine education. Our emphasis is on safety as well as horse care and riding skills. This is where good riders get their start and begin a lifelong relationship with horses.”

Wendy is very committed to providing the best care for the horses on the farm and this prompted her to send in a query to the interactive part of the Brooks Feeds web site. www.brooksfeeds.com “I wanted a feeding program that would meet the needs of the diverse individuals on our farm. I was surprised when Dan Irwin of Brooks Feeds suggested someone could come out to our farm and offer some suggestions.”

Brooks rep. Laurie Clarke visited Cottage Brooke Farm and suggested a program of *Fit & Fibre, All Phase 20 and Flax Appeal*. Wendy says she has also used Brooks *Un-Ti* with Flax Appeal for horses that have higher maintenance requirements.

Wendy's photography skills catch some spirited horses

“I really appreciate the information that was available through the web site and particularly the support I received right on the farm from Laurie. I get excellent service from Hillsburgh Feed & Supply as well. They deliver the feed right to our farm.

We're associated with the Rockwood Trail Riders and the Tottenham Equestrians and people frequently comment on how good my horses look. *My horses are a testament to the Brooks Feed.*”

Good formulations, careful research and knowledgeable people working with caring horse people like Wendy are the foundation of the Brooks success in Ontario. Thanks to Wendy and family for sharing their farm and story with us.

We're horse people too!
