

Brooks Supporter Chosen for World Endurance Championships

Wendy Benne a loyal supporter and friend of Brooks Horse Feeds is thrilled to have been chosen to represent Canada in at the World Endurance Championships in Malaysia this November.

Wendy secured her spot on the Canadian team after competing successfully in several FEI qualifying races over the past two seasons.

Wendy is very pleased with her latest competitive mount “*Supreme Justice*” or “Jay” as he is better known.

“I had the pleasure of starting him myself and have brought him along carefully to the FEI level. I really enjoy working with him; he has a lovely friendly personality and has such a willing attitude. Jay really covers ground with his huge stride and made his 1st 100 mile ride feel easy. It has been very satisfying bringing along such a talented and athletic horse to the international level of 100 mile Endurance racing.”

When it comes nutrition for Wendy’s horses she feels Brooks Feeds has had the right feeds and the right information to keep her horses in top shape for the rigors of high level endurance racing.

“I have had outstanding results on Brooks Feeds and my horses always have more than enough energy to compete at this elite level of 100 mile Endurance Racing. Their coats are always glowing and they maintain great body condition, even under the extremely heavy training that this sport requires”

“A great supplement to help prevent gastric problems and improve digestion is ADR pro-biotic paste from Kentucky Performance Products. I have noticed a definite increase in my horses’ appetites during races and extended travel since using ADR paste.”

Congratulations Wendy! Thanks for trusting Brooks for your Horse’s nutritional needs. We know you will be a very worthy representative for Canada in November. Have a successful and safe trip to Malaysia.
