

Brooks Feeds Makes a Difference!

“My friend and I have done some comparison photos of our horses who are on Brooks Feed programs recommended for us. We were both incredibly impressed with the results!

My mare Arty has been on her feed program for a year, she just started her maternity feed program. Our little paint filly, Heidi, has only been on the program for 5 months and growing like a weed! I am incredibly impressed with the results! I really appreciate all the advice Brooks Feeds Nutrition Rep Renee Seguin has given me for their feed programs.”
