

# Micro-Phase™

MINERALS AND VITAMINS

## Available Size:

- **30 lb** (13.61 kg) bucket (contains 240 2-ounce servings)

## Ingredients:

Dehydrated alfalfa meal, wheat middlings, monosodium phosphate, calcium carbonate, yeast culture, zinc sulfate, zinc proteinate, ferrous sulfate, manganese proteinate, copper sulfate, copper proteinate, ethylenediamine dihydriodide, cobalt sulfate, sodium selenite, vitamin A acetate in gelatin, vitamin D3 supplement, d-alpha-tocopheryl acetate (natural vitamin E), vitamin B12 supplement, menadione sodium bisulfite complex, riboflavin supplement, d-calcium pantothenate, thiamine mononitrate, niacin supplement, kelp meal, pyridoxine hydrochloride, folic acid, choline chloride, and d-biotin.

## Guaranteed Analysis:

	<b>Per 4 oz.</b>
Crude protein (Min.)	15 g
Calcium (Min.)	3 g
Phosphorus (Min.)	1.5 g
Copper (Min.)	136 mg
Selenium (Min.)	1.8 mg
Zinc (Min.)	400 mg
Vitamin A (Min.)	40,000 IU
Vitamin D (Min.)	4,000 IU
Vitamin E (Min.)	720 IU
Thiamine (Min.)	24 mg
Choline (Min.)	650 mg
Folic acid (Min.)	12 mg
Niacin (Min.)	120 mg
Pantothenic acid (Min.)	50 mg
Riboflavin (Min.)	40 mg
Vitamin B12 (Min.)	120 mcg

## Packed full of essential nutrients, not calories.

Everyone has one: a horse or pony that seems to live on air alone, one that eats mostly hay (and not very good hay at that), is restricted from grazing, and gets little to no grain. Micro-Phase offers the perfect solution by providing the vitamins and trace minerals necessary to support good health in a tasty, low-calorie pellet.

Micro-Phase is also excellent for horses that need extra nutrition on top of their regular concentrate meal, like lactating mares, hard-working performance horses, and seniors.

## Managing the Easy Keeper

Managing the easy keeper is anything but easy.

The biggest challenge when feeding an easy keeper is meeting nutrient requirements without overfeeding calories.

## Typical easy keeper's diet

Hay alone, or hay and less-than-recommended amounts of concentrate
