

Passion & Determination

Megann Desrosiers is a force to be reckoned with!

Megann Desrosiers is a 23-year-old barrel horse competitor from St-Anaclet, Quebec. She is a full time Paramedic by trade, and is working on a certificate in metal health.

Megann comes by her passion for riding quite naturally. Her mother, Janie started her riding at age 10 and she soon started competing in barrel racing on Janie's horse. Janie encouraged her competitive spirit and determination to excel at her sport.

In 2017 mom and daughter started their own barrel horse breeding program. Resulting in the arrival of a filly named "Roll me a French Kiss" in 2019. With the help of a sound Brooks diet the filly has matured into an awesome mare with an exceptional temperament. Megann trained "Kiss" herself with one thing in mind, to compete against the best barrel horses in the province.

Megann has already had some impressive achievements.

- Champion all around young AEGEQ 2017
- Reserve champion all around young 2D AEGEQ 2018
- Champion young Slalom AEGEQ 2017-2018
- Champion Relay 2D AEGEQ 2022
- Top 5 open barrels 2022 (St-Gabriel de Rimouski)
- 5 participations in provincial championships

This year (2023) Megann will follow the Futurity Circuit and compete against the top barrel racers in the province.

Megann and her mother Janie use a variety of Brooks products including *Phase II, Power Play, Enhancer, and Fit & Fibre* to ensure good nutrition for growing horses and to fuel championship performances. Brooks Feeds is proud to be the feed of choice for ambitious young riders like Megann. Her enthusiasm and determination are an indication of a healthy equine industry that Brooks is proud to be part of.
