Fit & Fibre

Textured

A complete ration with high quality fibre and added fat for use as a concentrate for horses needing manageable energy.

Features and Benefits

- ✓ Fit & Fibre is the perfect blend of good quality fibre, fat and carbohydrates with a moderate caloric value for horses requiring *controllable energy*.
- ✓ *Low glycemic* formula maximizes the positive effects of non NSC energy sources (fibre, fat) while controlled soluble carbohydrates are included to fully augment athletic achievement.
- ✓ A well-balanced level of vitamins and chelated minerals provide micronutrient fortification lacking in forages alone and eliminates the need for expensive supplements when fed at recommended levels.
- ✓ A full complement of *B Vitamins* including biotin supplies the daily maintenance requirements and a full spectrum of essential amino acids supplies protein for performance and muscle repair.
- ✓ Brooks *Oxiguard* System of natural source Vitamin E and organic selenium work synergistically as effective antioxidants to minimize muscle soreness and fatigue.
- ✓ A proprietary form of *Saccharomyces Cerevisiae*, a *probiotic* with a wide body of research improves digestion of fibre and promotes more efficient use of nutrients.

Guaranteed Analysis

Crude Protein (min.)	12.00 %
Crude Fat (min.)	6.50 %
Crude Fibre (max.)	20.00 %
Calcium (act.)	.80 %
Phosphorus (act.)	.60 %
Manganese (act.)	90 mg/kg
Copper (act.)	35 mg/kg
Zinc (act.)	130 mg/kg
Sodium (act.)	.40 %
Vitamin A (min.)	9000 IU/kg
Vitamin D (min.)	920 IU/kg
Vitamin E (min.)	240 IU/kg
Selenium (min. added)	.38 mg/kg

Nutritional Enhancements *full analysis available	
Biotin	.31 mg/kg
Thiamine	11.30 mg/kg
Riboflavin	10.30 mg/kg
Omega 3 fatty acids	.45 %
Omega 6 fatty acids	2.89 %
Lysine	.61 %
Saccharomyces cerevisiae

Fit & Fibre Description

Fit & Fibre is a fibre and fat-based feed suitable for a wide range of horses. The low glycemic, controlled NSC formula with added fat makes Fit & Fibre an excellent choice for horses needing a moderate amount of controllable energy. Fit & Fibre draws energy primarily from high quality fibre sources without excessive “filler fibres” common in lower quality feeds and added fat to increase the energy level. Fit & Fibre supplies total nutrition in a palatable textured or pelleted form that horses take to readily and stay on during training, competing or pleasure riding while outperforming comparably priced competitive products.

Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition

Mature Weight

Activity level	900 lbs (400 kg)	1100 lbs (500 kg)	1300 lbs (600 kg)
Light *	4.0 - 8.0 lbs (1.8 - 3.6 kg)	6.0 - 10.0 lbs (2.75 - 4.5 kg)	7.0 - 12.0 lbs (3.2 - 5.5 kg)
Moderate **	5.0 - 10.0 lbs (2.25 - 4.5 kg)	7.0 - 12.0 lbs (3.2 - 5.45 kg)	8.0 - 14.0 lbs (3.6 - 6.4 kg)

* ie. jogging, trail riding, pleasure ** ie. dressage, jumping, cutting

Note: Warmblood and Draft type horses may require different amounts from light horse breeds. Contact a Brooks Feed representative or submit a request on our interactive web site.

The amount of feed required depends on the body condition, the metabolism, and the type of activity the horse is used for. For each pound of **Fit & Fibre** fed daily below $\frac{1}{2}$ pound per 100 pounds of the horse's bodyweight add $\frac{1}{4}$ pound (115 grams) **Brooks Enhancer or All Phase 20**. For specific feeding suggestions consult a Brooks Feed representative or submit a request online using our interactive feeding guide. Always provide fresh clean water and free choice salt with a minimum of 1% of the horse's bodyweight in hay or equivalent pasture. Store in a cool dry location. The amount fed varies according to the quality of hay or pasture. A hay analysis is recommended to ensure a balanced ration.

A list of ingredients and full nutritional analysis is available by contacting the manufacturer
