Phase III Elite

Textured

Balanced energy, ultimate performance, with a highly palatable formula for hard working performance horses!

Features and Benefits

- ✓ Formulated with a **blend of energy sources** with an emphasis on rapidly available carbohydrates to support maximum speed and power.
- ✓ New higher fat level from stabilized flax, rice bran and soy oil provide maximum sustainable calories and essential Omega 3 fatty acids from flax.
- ✓ A **well-balanced level of vitamins and chelated minerals** provide micronutrient fortification lacking in forages alone and eliminates the need for expensive supplements when fed at recommended levels.
- ✓ A proprietary form of *Saccharomyces Cerevisiae*, a **prebiotic** with a wide body of research improves digestion of fibre and promotes more efficient use of nutrients.
- ✓ A full complement of B Vitamins including biotin supplies the daily maintenance requirements and a full spectrum of essential amino acids supplies protein for performance and muscle repair.
- ✓ Brooks **Oxiguard** System of natural source Vitamin E and organic selenium work synergistically as effective antioxidants to minimize muscle soreness and fatigue.

Formulated with **BMC™**
(Buffered Mineral Complex.)

Phase III is manufactured in a **drug free** environment with strict feed safety protocols!

Guaranteed Analysis

Crude Protein (min.)	12.00 %
Crude Fat (min.)	8.00 %
Crude Fibre (max.)	15.00 %
Calcium (act.)	.78 %
Phosphorus (act.)	.55 %
Manganese (act.)	95 mg/kg
Copper (act.)	55 mg/kg
Zinc (act.)	135 mg/kg
Sodium (act.)	.43 %
Vitamin A (min.)	11050 IU/kg
Vitamin D (min.)	1105 IU/kg
Vitamin E (min.)	325 IU/kg
Selenium (min. added)	.50 mg/kg

Nutritional Enhancements *full analysis available	
Biotin	.28 mg/kg
Thiamine	11.80 mg/kg
Riboflavin	12.63 mg/kg
Omega 3 fatty acids	.43 %

Phase III Elite Description

Phase III Elite is a performance feed for horses active in high intensity disciplines requiring large amounts of energy. While a blend of energy sources is included, rapidly available carbohydrates are emphasized to support maximum speed and power. Phase III Elite also has added fat in the form of soy oil to substantially increase the overall energy level. Phase III Elite is formulated for hard working athletic horses requiring maximum energy from various sources in a very palatable form. *Horses actively racing or in training will benefit from BMC. Fewer injuries and gastric ulcers are potential real-life factors that could be significantly reduced with feeds formulated with BMC.* Phase III Elite supplies total nutrition in a convenient palatable form that horses take to readily and stay on during training and competition.

Many top trainers have demonstrated the performance quality, the palatability, and the total nutritional value of Phase III Elite.

Feeding Suggestions

Feed horses according to level and type of activity and to maintain ideal body condition

Mature Weight

Activity level	900 lbs (400 kg)	1100 lbs (500 kg)	1300 lbs (600 kg)
Light *	4.0 - 8.0 lbs (1.8 - 3.6 kg)	6.0 - 10.0 lbs (2.75 - 4.5 kg)	7.0 - 12.0 lbs (3.2 - 5.5 kg)
Moderate **	5.0 - 10.0 lbs (2.25 - 4.5 kg)	7.0 - 12.0 lbs (3.2 - 5.45 kg)	8.0 - 14.0 lbs (3.6 - 6.4 kg)
Heavy ***	6.0 - 11.0 lbs (2.7 - 5.0 kg)	8.0 - 13.0 lbs (3.6 - 5.9 kg)	9.0 - 16.0 lbs (4.0 - 7.25 kg)

* ie. jogging, trail riding, pleasure ** ie. dressage, jumping, cutting *** ie. racing, polo, eventing

Note: Warmblood and Draft type horses may require different amounts from light horse breeds. Contact a Brooks Feed representative or submit a request on our interactive web site.

The amount of feed required depends on the body condition, the metabolism, and the type of activity the horse is used for. For each pound of **Phase III Elite** fed daily below $\frac{1}{2}$ pound per 100 pounds of the horse's bodyweight add $\frac{1}{4}$ pound (115 grams) **Brooks Enhancer or All Phase 20**. For specific recommendations consult a Brooks Feed representative or submit a request online using our interactive feeding guide. Always provide fresh clean water and free choice salt with a minimum of 1% of the horse's bodyweight in hay or equivalent pasture. Store in a cool dry location. The amount fed varies according to the quality of hay or pasture. A hay analysis is recommended to ensure a balanced ration.

A list of ingredients and full nutritional analysis is available by contacting the manufacturer.
