## OPTIMAL NUTRITION FOR GROWING HORSES & BROODMARES

- Fortified with balanced vitamins and micronutrients, including organic/chelated trace minerals, and natural source Vitamin E.
- Buffered Mineral Complex (BMC™) is a source of highly bioavailable, marine-derived calcium and essential trace minerals, formulated to support optimal gastrointestinal and skeletal health.
- Enhanced fatty acid profile, essential for healthy coats and joints.
- Added probiotic (*Saccharomyces Cerevisiae*) for the support of gut health and digestion.

GENESIS FEED IS MANUFACTURED IN A **DRUG FREE** ENVIRONMENT.

BROOKS FEEDS NUTRITIONAL SUPPORT – CALL 1-877-352-8236

## FEEDING INSTRUCTIONS

**CAUTION:** Easy-keeping mares and growing horses may require adjusted amounts of feed. Faster growing animals may be more susceptible to developmental orthopedic diseases. Contact Brooks Equine Nutrition for feeding instructions.

The amount of feed required is dependent on the body condition, the metabolism and the rate of growth expected. Proper intake of minerals and vitamins is extremely important for growing horses. Brooks All Phase or Brooks Enhancer should be added to the ration when less than the recommended amount is fed.
